

Inventory Management System

Unit Test Report

Report Generated: 2025-12-03 00:18:27

Test Summary

Metric	Value
Total Tests	53
Status	PASSED
Exit Code	0

Test Modules

Test Module	Description	Tests
test_user_model.py	User authentication & management	4
test_inventory_model.py	Inventory CRUD operations	7
test_supplier_model.py	Supplier management	5
test_customer_model.py	Customer management	5
test_encryption.py	Password hashing & verification	6
test_barcode_utils.py	Barcode generation	2
test_import_export.py	CSV/Excel import/export	4
test_purchase_order_model.py	Purchase orders	3
test_sales_order_model.py	Sales orders	3
test_audit_log_model.py	Audit logging	3
test_stock_alert_model.py	Stock alerts	3
test_dashboard_stats.py	Dashboard statistics	2
test_email_notifications.py	Email system	3
test_login_controller.py	Login controller	3

Detailed Test Output

```
[DB] Setup/migration complete.

[DB] Setup/migration complete.
test_get_audit_logs (test_audit_log_model.TestAuditLogModel.test_get_audit_logs)
Test retrieving audit logs ... ok
test_get_audit_logs_by_user
(test_audit_log_model.TestAuditLogModel.test_get_audit_logs_by_user)
Test retrieving audit logs for specific user ... ok
test_log_action (test_audit_log_model.TestAuditLogModel.test_log_action)
Test logging an action ... ok
test_generate_barcode_number
(test_barcode_utils.TestBarcodeUtils.test_generate_barcode_number)
Test generating a barcode number ... ok
test_generate_unique_barcode_numbers
(test_barcode_utils.TestBarcodeUtils.test_generate_unique_barcode_numbers)
Test that generated barcodes are unique ... ok
test_create_customer (test_customer_model.TestCustomerModel.test_create_customer)
Test creating a new customer ... ok
test_delete_customer (test_customer_model.TestCustomerModel.test_delete_customer)
Test deleting a customer ... ok
test_get_customer (test_customer_model.TestCustomerModel.test_get_customer)
Test retrieving a customer by ID ... ok
test_search_customers (test_customer_model.TestCustomerModel.test_search_customers)
Test searching customers ... ok
test_update_customer (test_customer_model.TestCustomerModel.test_update_customer)
Test updating customer information ... ok
test_get_dashboard_stats
(test_dashboard_stats.TestDashboardStats.test_get_dashboard_stats)
Test getting dashboard statistics ... ok
test_get_recent_activity
(test_dashboard_stats.TestDashboardStats.test_get_recent_activity)
Test getting recent activity ... ok
test_is_email_configured
(test_email_notifications.TestEmailNotifications.test_is_email_configured)
Test checking if email is configured ... ok
test_send_low_stock_alert
(test_email_notifications.TestEmailNotifications.test_send_low_stock_alert)
Test low stock alert function exists ... ok
test_send_welcome_email
(test_email_notifications.TestEmailNotifications.test_send_welcome_email)
Test welcome email function exists ... ok
test_hash_different_passwords_produce_different_hashes
(test_encryption.TestEncryption.test_hash_different_passwords_produce_different_hashes)
Test that different passwords produce different hashes ... ok
test_hash_password (test_encryption.TestEncryption.test_hash_password)
Test password hashing ... ok
test_same_password_different_salts
(test_encryption.TestEncryption.test_same_password_different_salts)
Test that same password produces different hashes (due to random salt) ... ok
test_verify_correct_password
(test_encryption.TestEncryption.test_verify_correct_password)
Test verifying a correct password ... ok
test_verify_empty_password (test_encryption.TestEncryption.test_verify_empty_password)
Test verifying empty password ... ok
test_verify_incorrect_password
(test_encryption.TestEncryption.test_verify_incorrect_password)
Test verifying an incorrect password ... ok
test_export_inventory_to_csv_empty_list
(test_import_export.TestImportExport.test_export_inventory_to_csv_empty_list)
Test exporting empty inventory list ... ok
test_export_to_csv (test_import_export.TestImportExport.test_export_to_csv)
Test exporting data to CSV ... ok
test_import_from_csv (test_import_export.TestImportExport.test_import_from_csv)
Test importing data from CSV ... ok
test_import_from_csv_missing_headers
(test_import_export.TestImportExport.test_import_from_csv_missing_headers)
```

```
Test importing CSV with missing required headers ... ok
test_add_item (test_inventory_model.TestInventoryModel.test_add_item)
Test adding a new inventory item ... ok
test_add_item_with_barcode
(test_inventory_model.TestInventoryModel.test_add_item_with_barcode)
Test adding item with barcode ... ok
test_delete_item (test_inventory_model.TestInventoryModel.test_delete_item)
Test deleting an item ... ok
test_get_items (test_inventory_model.TestInventoryModel.test_get_items)
Test retrieving all items ... ok
test_search_items_by_name
(test_inventory_model.TestInventoryModel.test_search_items_by_name)
Test searching items by name ... ok
test_search_items_by_sku
(test_inventory_model.TestInventoryModel.test_search_items_by_sku)
Test searching items by SKU ... ok
test_update_item (test_inventory_model.TestInventoryModel.test_update_item)
Test updating an item ... ok
test_create_admin_account
(test_login_controller.TestLoginController.test_create_admin_account)
Test creating admin account ... ok
test_login_failure (test_login_controller.TestLoginController.test_login_failure)
Test failed login with wrong password ... ok
test_login_success (test_login_controller.TestLoginController.test_login_success)
Test successful login ... ok
test_create_purchase_order
(test_purchase_order_model.TestPurchaseOrderModel.test_create_purchase_order)
Test creating a purchase order ... ok
test_get_purchase_order
(test_purchase_order_model.TestPurchaseOrderModel.test_get_purchase_order)
Test retrieving a purchase order ... ok
test_update_purchase_order_status
(test_purchase_order_model.TestPurchaseOrderModel.test_update_purchase_order_status)
Test updating purchase order status ... ok
test_create_sales_order
(test_sales_order_model.TestSalesOrderModel.test_create_sales_order)
Test creating a sales order ... ok
test_get_sales_order (test_sales_order_model.TestSalesOrderModel.test_get_sales_order)
Test retrieving a sales order ... ok
test_update_sales_order_status
(test_sales_order_model.TestSalesOrderModel.test_update_sales_order_status)
Test updating sales order status ... ok
test_check_and_create_alerts
(test_stock_alert_model.TestStockAlertModel.test_check_and_create_alerts)
Test checking and creating stock alerts ... ok
test_get_active_alerts
(test_stock_alert_model.TestStockAlertModel.test_get_active_alerts)
Test retrieving active alerts ... ok
test_resolve_alert (test_stock_alert_model.TestStockAlertModel.test_resolve_alert)
Test marking an alert as resolved ... ok
test_create_supplier (test_supplier_model.TestSupplierModel.test_create_supplier)
Test creating a new supplier ... ok
```
